### Description:

IANA: [Port assignments](#).

### Links:

The well known ports are assigned by IANA in the range of 0 to 1023.

| Port | Transport         | Protocol                                               |
|------|-------------------|--------------------------------------------------------|
| 0    | TCP               | Shirt Pocket netTunes.<br>Shirt Pocket launchTunes.    |
| 1    | TCP               | <a href="#">TCPMUX</a> , TCP Port Service Multiplexer. |
| 2    | TCP, UDP          | Management Utility.                                    |
| 3    | TCP, UDP          | Compression Process.                                   |
| 4    |                   |                                                        |
| 5    | TCP, UDP          | Remote Job Entry.                                      |
| 6    |                   |                                                        |
| 7    | TCP, UDP          | <a href="#">Echo</a> .                                 |
| 8    |                   |                                                        |
| 9    | SCTP,<br>TCP, UDP | <a href="#">Discard</a> .                              |
| 10   |                   |                                                        |
| 11   | TCP, UDP          | <a href="#">SYSTAT</a> .                               |
| 12   |                   |                                                        |
| 13   | TCP, UDP          | <a href="#">Daytime</a> .                              |
| 14   |                   |                                                        |
| 15   |                   |                                                        |
| 16   |                   |                                                        |
| 17   | TCP, UDP          | <a href="#">Quote</a> , Quote of the Day.              |
| 18   | TCP, UDP          | <a href="#">RWP</a> , Remote Write Protocol.           |

|    |              |                                                         |
|----|--------------|---------------------------------------------------------|
| 18 | TCP, UDP     | <a href="#">Send</a> , Message Send Protocol.           |
| 19 | TCP, UDP     | <a href="#">Chargen</a> , Character Generator Protocol. |
| 20 | TCP          | <a href="#">FTP</a> , File Transfer Protocol, data.     |
| 21 | TCP          | <a href="#">FTP</a> , File Transfer Protocol, control.  |
| 22 | SCTP,<br>TCP | <a href="#">SSH</a> .                                   |
| 23 | TCP          | <a href="#">Telnet</a> .                                |
| 24 |              | Any private mail system.                                |
| 25 | TCP          | <a href="#">SMTP</a> , Simple Mail Transfer Protocol.   |
| 26 |              |                                                         |
| 27 | TCP, UDP     | NSW User System FE.                                     |
| 28 |              |                                                         |
| 29 | TCP, UDP     | MSG ICP.                                                |
| 30 |              |                                                         |
| 31 | TCP, UDP     | MSG Authentication.                                     |
| 32 |              |                                                         |
| 33 | TCP, UDP     | Display Support Protocol.                               |
| 34 |              |                                                         |
| 35 |              | Any private printer server.                             |
| 36 |              |                                                         |
| 37 | TCP, UDP     | <a href="#">Time</a> , Time Protocol.                   |
| 38 | TCP, UDP     | <a href="#">RAP</a> , Internet Route Access Protocol.   |
| 39 | UDP          | <a href="#">RLP</a> , Resource Location Protocol.       |
| 40 |              |                                                         |
| 41 | TCP, UDP     | Graphics.                                               |

|    |          |                                                       |
|----|----------|-------------------------------------------------------|
| 42 | UDP      | <a href="#">Internet Name Server.</a>                 |
| 43 | TCP      | <a href="#">Whois.</a>                                |
| 44 | TCP, UDP | MPM FLAGS Protocol.                                   |
| 45 | TCP      | <a href="#">Internet Message Protocol.</a>            |
| 46 | TCP, UDP | MPM [default send].                                   |
| 47 | TCP, UDP | NI FTP.                                               |
| 48 | TCP, UDP | Digital Audit Daemon.                                 |
| 49 | TCP      | <a href="#">TACACS+.</a>                              |
|    | UDP      | <a href="#">TACACS.</a>                               |
| 50 | UDP      | <a href="#">RMCP</a> , Remote Mail Checking Protocol. |
| 51 | TCP, UDP | IMP Logical Address Maintenance.                      |
| 52 | TCP, UDP | XNS Time Protocol.                                    |
| 53 | TCP, UDP | <a href="#">DNS</a> , Domain Name System.             |
| 54 | TCP, UDP | XNS Clearinghouse.                                    |
| 55 | TCP, UDP | ISI Graphics Language.                                |
| 56 | TCP, UDP | XNS Authentication.                                   |
| 57 | TCP      | <a href="#">MTP</a> , Mail Transfer Protocol.         |
| 58 | TCP, UDP | XNS Mail.                                             |
| 59 | TCP      | <a href="#">NFILE.</a>                                |
| 60 |          |                                                       |
| 61 | TCP, UDP | NI MAIL.                                              |
| 62 | TCP, UDP | ACA Services.                                         |
| 63 | TCP, UDP | <a href="#">Whois++.</a>                              |
| 64 | TCP, UDP | CI, Communications Integrator.                        |

|               |          |                                                        |
|---------------|----------|--------------------------------------------------------|
| 65            | TCP, UDP | TACACS-Database Service.                               |
| 66            | TCP, UDP | Oracle SQL*NET.                                        |
| 67            | UDP      | <a href="#">BOOTP</a> , Bootstrap Protocol, server.    |
| 68            | UDP      | <a href="#">BOOTP</a> , Bootstrap Protocol, client.    |
| 69            | UDP      | <a href="#">TFTP</a> , Trivial File Transfer Protocol. |
| 70            | TCP      | <a href="#">Gopher</a> .                               |
| 71<br>-<br>74 | TCP, UDP | Remote Job Service.                                    |
| 75            |          | Any private dial out service.                          |
| 76            | TCP, UDP | Distributed External Object Store.                     |
| 77            |          | Any private RJE service.                               |
| 78            | TCP, UDP | vettcp.                                                |
| 79            | TCP      | <a href="#">Finger</a> .                               |
| 80            | TCP      | <a href="#">HTTP</a> , HyperText Transfer Protocol.    |
| 81            |          |                                                        |
| 82            | TCP, UDP | XFER Utility.                                          |
| 83            | TCP, UDP | MIT ML Device.                                         |
| 84            | TCP, UDP | Common Trace Facility.                                 |
| 85            | TCP, UDP | MIT ML Device.                                         |
| 86            | TCP, UDP | Micro Focus Cobol.                                     |
| 87            |          | Any private terminal link.                             |
| 88            | UDP      | <a href="#">Kerberos</a> .                             |
| 89            | TCP, UDP | SU/MIT Telnet Gateway.                                 |
| 90            | TCP, UDP | Used unofficially by Pointcast.                        |

|    |          |                                     |
|----|----------|-------------------------------------|
| 90 | TCP, UDP | DNSIX Securit Attribute Token Map.  |
| 91 | TCP, UDP | MIT Dover Spooler.                  |
| 92 | TCP, UDP | Network Printing Protocol.          |
| 93 | TCP, UDP | Device Control Protocol.            |
| 94 | TCP, UDP | Tivoli Object Dispatcher.           |
| 95 |          | <a href="#">SUPDUP</a> .            |
| 96 | TCP, UDP | <a href="#">DIXIE</a> .             |
| 97 | TCP, UDP | Swift Remote Virtual File Protocol. |
| 98 | TCP, UDP | TAC News.                           |
| 99 | TCP, UDP | Metagram Relay.                     |

| Port | Transport | Protocol                                               |
|------|-----------|--------------------------------------------------------|
| 100  |           |                                                        |
| 101  | TCP       | <a href="#">HOSTNAME</a> .                             |
| 102  | TCP       | <a href="#">TPO</a> over TCP.                          |
| 103  | TCP, UDP  | Genesis Point-to-Point Trans Net.                      |
| 104  |           | ACR-NEMA Digital Imag. & Comm. 300.                    |
| 105  | TCP       | <a href="#">Ph</a> .                                   |
| 105  |           | Mailbox Name Nameserver.                               |
| 106  |           | 3COM-TSMUX.                                            |
| 107  |           | Remote <a href="#">Telnet</a> Service.                 |
| 108  |           | SNA Gateway Access Server.                             |
| 109  | TCP       | <a href="#">POP</a> , Post Office Protocol, version 2. |
| 110  | TCP       | <a href="#">POP</a> , Post Office Protocol, version 3. |
| 111  |           | <a href="#">Portmapper</a> .                           |

|            |          |                                                             |
|------------|----------|-------------------------------------------------------------|
| <b>112</b> |          | McIDAS Data Transmission Protocol.                          |
| <b>113</b> | TCP      | <a href="#">Identification Protocol</a> .                   |
| <b>114</b> |          |                                                             |
| <b>115</b> | TCP      | <a href="#">SFTP</a> , Simple File Transfer Protocol.       |
